

UroGen Support™ **Program Overview**

UroGen Support provides access and reimbursement services to patients who have been prescribed JELMYTO® (mitomycin) for pyelocalyceal solution. The steps outlined in this brochure provide an overview of the process for enrolling patients, ordering the product, and when communication can be expected from UroGen Support.

Steps and actions to acquire JELMYTO® (mitomycin) for pyelocalyceal solution for your patients

PRE-ENROLLMENT

The JELMYTO acquisition process requires a declaration by the provider to acquire the product solely through either Cardinal Health or Cencora-Besse Specialty Pharmaceutical Distributors. You will need to complete the JELMYTO Account Set-up Form at this stage.

PROVIDER ACTIONS:

To get started, provide your Cardinal Health or Cencora-Besse account details (if available) for account verification OR create an account with the appropriate distributor by completing and signing the Account Set-up Form and emailing to Distribution@UroGenSupport.com.

ENROLLMENT

Completing step one ensures patients are enrolled and that JELMYTO can be ordered.

PROVIDER ACTIONS:

- Complete the Patient Enrollment Form with signatures
- Patient Enrollment Form can be accessed. completed, and submitted via the UroGen Support portal via UroGenSupport.com
- Send to UroGen Support™ via fax 833-664-7216 or email. Contact@UroGenSupport.com
- JELMYTO can only be ordered through UroGen Support. Please visit UroGenSupport.com or call 855-JELMYTO (855-535-6986).

ACCESS SUPPORT

Step two offers assistance for all your access and reimbursement needs.

PROVIDER ACTIONS:

- Conduct benefits investigation
- Complete PA form (if necessary)
- Write a letter of medical necessity (if necessary)
- Provide information regarding appeals in a timely manner

ACQUISITION

Once patient access is confirmed, JELMYTO can be ordered and prepared for delivery.

PROVIDER ACTIONS:

 Connect with UroGen Support to confirm JELMYTO order

ADMINISTRATION

UroGen Support will confirm JELMYTO was administered, assist with confirming the next appointment date, and place next order.

PROVIDER ACTIONS:

- Administer JELMYTO to patient
- Schedule next appointment with patient

UroGen Support is available to answer questions during this process and will communicate important details surrounding patient enrollment.

UROGEN SUPPORT ACTIONS:

- Collect completed enrollment form
- Inform provider of patient's enrollment status
- UroGen Support can provide a portal overview and assist with getting started

UroGen Support will provide assistance with the following: benefits investigation, prior authorizations and appeals, billing and coding, and patient affordability options.

UROGEN SUPPORT ACTIONS:

- Share the benefits investigation report, outlining the patient's JELMYTO coverage and potential PA requirements
- Inform provider of available affordability options

UroGen Support will closely monitor the acquisition, preparation, and delivery of JELMYTO to ensure each milestone is met.

UROGEN SUPPORT ACTIONS:

- Call provider to confirm appointment
- Coordinate JELMYTO order and delivery

UROGEN SUPPORT ACTIONS:

Coordinate next order
